

SOLENOID ACTUATED VALVES SERIES K WITH NAMUR CONNECTION

STRÁNSKÝ A PETRŽÍK

A range of indirectly operated valves with NAMUR connection (according to VDI/VDE 3845), based on our popular K-series valves. Available in 5/2 versions with one or two coils and 5/3 with a central position that is both vented and pressurized. A 3/2 version can be created using an adapter that is ordered separately. Using a connection plate, the valve can then be mounted directly on the cylinder inlet. A connector, sealings and screws are also included.

Valves series K contains spool and sleeve assembly, which guarantee long lifetime of valve.

Series	K2 NAMUR	
Port	G1/4" (NAMUR for outlets 2 and 4)	G3/8" (NAMUR for outlets 2 and 4)
Connection of external pressure supply port	M5	M5
Flow capacity [Nl/min]	1700	1700
Working pressure [MPa]	0,15 to 1,0 (vacuum to 2,1 when external pilot supply is used)	
Pilot pressure range [MPa]	0,15 to 1,0	
Power input [W/VA] (standard coils)	3W for DC voltage, 7,5 VA inrush and 5 VA hold for AC voltage	
Response time for DC voltage [ms]	10 energize, 35 de-energize	
Response time for AC voltage [ms]	7 energize, 35 de-energize	
Temperature range [°C]	medium temperature max. 50, ambient temperature -20 to +50	
Enclosure (standard coils)	IP65 with sealed and fastened connector

Function		
52 80 90		5/2 monostable (with 1 coil)
52 80 80		5/2 bistable (with 2 coils)
53 80 80		5/3 with exhaust centre position
73 80 80		5/3 with pressure centre position

Port	
06	thread G1/4"
08	thread G3/8"

Voltage	
30	24 V DC \pm 10%
40	24 V AC \pm 10% 50-60 Hz
50	110 V AC \pm 10% 50-60 Hz
60	230 V AC \pm 10% 50-60 Hz
31	24 V DC \pm 10% ATEX II 2G(D)*

Series	
A	K2 NAMUR

i Supply contains connector(s).

i Spare coils - see page 5-4.

*)See detailed specification of ATEX coil on the next page

Accessories

Description	Order codes	
Adapter for making of 3/2 function (from function 52 80 90)	PMVSN300-A-K	
Connection plate for mounting the valve on cylinder inlet	G1/8"	2101 8100 0032 0000
	G1/4"	2101 8100 0040 0000
	G3/8"	2101 8100 0063 0000
	G1/2"	2101 8100 0100 0000

Adapter for making of 3/2 function (from function 52 80 90)

By mounting this adapter on a valve with one coil (function 52 80 90), a valve with a NAMUR connection with a 3/2 design is created. If the adapter is mounted on the valve with the silencer facing the coil, the valve will be normally open; if the adapter is mounted with the silencer facing away from the coil, the valve will be normally closed.
