

# MANUALLY ACTUATED VALVES SERIES MVMB AND MVMC FOR PANEL MOUNTING

**STRÁNSKÝ A PETRŽÍK**

The new valve series, which replaces the old valve series for panel mounting with replaceable actuators. basic usable features are kept and brings some improvements such as bigger flow capacity, better accessibility and not least also better comfort during mounting and changing of actuators. Bigger actuators also brings the better user comfort during the actuating. The valves can be mounted into the panel with hole dia. 25 mm, or by using holes on the valve body. The big variability allows also changing of actuator anytime during operation - just turn off/on 2 screws on the side of valve and actuator is unlocked/locked.

This valve series contains rubber gaskets.
